### ABOUT INSTITUTION:

Global Institute of Engineering and Technology, Hyderabad, Telangana is affiliated to JNTUH & approved by AICTE. GIET was established in the year 2006 with a vision To produce technologically skilled Engineers of world class competency to address global challenges. GIET nurtures and supports a unique system of education structure on values and combines the tenets of the academic excellence with corporate professionalism. The primary objective at Global Institute of Engineering and Technology is to impart quality education which leads to quality living. Located at Moynabad, the sprawling campus spread over 28 acres of lush greenery creates the most conducive environment for education. GIET offers undergraduate programmes in ECE, EEE, CSE, CE, ME and postgraduate programmes Embedded Systems & Structural Engineering.

The system of education at Global Institute of Engineering & Technology grooms the students to rise into professionals and leaders of high academic caliber with unblemished character. Dedicated, experienced and qualified faculty help in honing the skills of students at early level of their learning.

### ABOUT THE DEPARTMENT:

The department of Humanities & Sciences, since its inception in 2006 follows “Scientific approach—pursuit for truth” and striving at par to academic excellence with value based education. The Department of Humanities and Science has emerged as a department pursuing excellence and grown in strength over the years in terms of infrastructure including laboratories and faculty. Even after a decade, the department is burgeoning with highly motivated and well qualified young as well as experienced faculty including PhDs from other universities. H&S Dept caters to the needs of all the students and nourishes the practical skills by providing the flexibility of self learning for students through audio-visual methods.

### ABOUT THE CERTIFICATE

#### COURSE:

Importance of Science in Engineering Programming is a course that focuses on teaching students about the various commands, functions, and features that Importance of Science in Engineering have to offer. Importance of Science in Engineering have a lot of capabilities and so this course will only focus on the main topics to get you comfortable creating your own scripts and Importance of Science in Engineering models. This course contains many examples of different projects as well as step-by-step solutions to help you best understand what is going on. The completed code is attached in the projects so that students can download and get the same results they see onscreen.

#### COURSE STRUCTURE

This course is designed to teach students through a combination of articles to help explain various topics and videos to show examples of these topics. There are also various quizzes that are designed to test students and let them know if they sufficiently understand the information presented in the section. This course starts out by briefly covering an overview of the Importance of Science in Engineering environment and where
