### CIRCULAR

All the students are hereby informed that “Eco-friendly Toilet & Small Water Tank” will be conducted at Chilkur village November 2016.

The Anganwadi School in Chilkur village did not have a toilet and water facility. The kids defecated in open. The uniqueness of the eco-friendly toilet lies in the fact that it is made up of plastic bottles filled with mud in place of bricks.

It was constructed in November 2016 and 54 students monitored. One Liter plastic bottles of mineral water were collected and used filling with mud, compacted, capped and use in place of conventional bricks for construction of the toilet and water tank.

It took ten days for completing the construction including the painting. This toilet for the tiny tots is also cost effective. **Eco-friendly**

Hence GIET management ,staff members and all students are conveying their appreciations to those students
